Art Unit: 2611

DETAILED ACTION

Priority

1. Please update the status of the parent application mentioned in the specification.

Claim Objections

2. Claims 1-18 are objected to because of the following informalities: claim 1, line 10 recites "transferring the input power signal", however it is noted that the claim does positively recite "to what component of the modem" the "power signal" is transferred to. The same comment applies to the limitation "transferring the data signal", recited in line 11. Similar comment applies to similar limitations recited in claim 8. Claim 15, line 1, "modem" should be deleted. The same comment applies equally to claim 17. Note that any claim whose base claim is objected is likewise objected. Appropriate correction is required.

Conclusion

3. This application is in condition for allowance except for the formal matters noted above.

Prosecution on the merits is closed in accordance with the practice under *Ex* parte Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO**MONTHS from the mailing date of this letter.

Allowable Subject Matter

Application/Control Number: 10/676,385 Page 3

Art Unit: 2611

4. Claims 1-18 would be allowable if amended to overcome the objection set forth above.

5. The following is a statement of reasons for the indication of allowable subject matter: a method and apparatus are disclosed. The closest prior art US Pat No. RE38196E discloses similar method and apparatus. However, the prior art does not teach or fairly suggest, in combination with the other claimed limitations, the limitations of "a magnetic link operatively coupled to the switching signal of the switching converter, the magnetic link for transferring the input power signal during the active portion of the switching period, and for transferring the data signal during the non-active portion of the switching period" recited in claim 1 and substantially similar limitations recited 8.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jean B. Corrielus whose telephone number is 571-272-3020. The examiner can normally be reached on M-TH from 10:00AM-4:00PM

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jay Patel can be reached on 571-272-2988. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
